

Appl. No. 09/412,947  
Amdt. dated February 17, 2004  
Reply to Notice to Comply dated January 16, 2004

### **REMARKS**

Pages 63-89 of the specification have been amended to indicate the appropriate sequence identifiers and to correct some obvious typographical errors. The sequence listing has been amended to include SEQ ID NOS:9 and 10 based on sequences already present in the specification. Accordingly, no new matter has been added by these amendments.

Applicants have used bold double underlining to indicate added text in order not to create confusion with some of the markings already being used in the sequences.
